The bed is the central focus, featuring a headboard and footboard made of light-colored wood. The headboard is designed as a sliding barn door, with a black metal track and two large black metal sliding bolts. The bed is dressed in a white duvet cover with a blue floral pattern, a blue blanket, and several pillows: two large blue pillows, two white pillows with blue floral patterns, and a small blue and white patterned pillow. The bed is set on a wooden frame.

The nightstand is made of light-colored wood and has a simple, rustic design. It features a single drawer with a black metal handle. On top of the nightstand is a lamp with a white shade and a wooden base, a small blue candle, and a decorative glass orb. The nightstand is positioned to the left of the bed.

The room has a rustic, warm atmosphere. The walls are painted a dark brown color, and the floor is made of dark wood. A large wooden beam runs across the top of the wall, and a wooden corbel is visible on the right side. The overall style is a blend of modern and traditional rustic decor.

QUALITY HAS NO FEAR OF TIME!

Every **elegant piece** we make is crafted to become a family classic. OUR CAREFUL SELECTION OF PATTERN GRADE WOODS **and attention to all details** OF EACH PIECE ARE **THE SECRETS OF CREATING** SOMETHING OF SPECIAL VALUE. Our products are **always welcome** in homes of distinction.

TIPS TO MAKE YOUR FURNITURE LAST A LIFETIME:

REMOVE DUST

Dust buildup is made up of small airborne particles, and may scratch or dull the surface if not removed correctly.

Simply wipe the surface with a cloth dampened with a cleaning polish or mild detergent.

CONTROL HUMIDITY

Solid wood furniture will expand and contract if humidity levels are too high or too low. Ideal humidity is 35% - 45%.

CLEAN

Fingerprints, cooking fumes, smoking residue, etc., accumulate on any finished surface.

None of these contaminants will harm our finish, but they should periodically be removed to restore the finish to its original luster. Just wipe the surface with a cloth dampened with a non-wax containing polish or mild detergent solution. Avoid the use of ammonia based products or silicone oils as they may cause damage if used over a long period of time. The finish is durable and resistant to most household spills.

However, spills should be wiped up promptly to avoid potential problems. Excessive prolonged exposure to direct sunlight, high temperatures and high humidity can cause damage to both the finish and the wood itself, therefore these should be avoided.

FOLLOWING THESE SIMPLE STEPS WILL KEEP YOUR FINISHED PIECE LOOKING LIKE NEW FOR MANY YEARS TO COME.
